NUMBER 4

CAMPAIGN CHAIRMEN.

Congressman Ben Johnson Will Lead Bryan Men.

HARMONY MARKS COMMITTEE MEETING.

Robert H. Winn Will Direct Fight For Taft Men.

The Democratic State Committee Wednesday elected Congressman Ben Johnson, of Bardonia, as chairman of the Campaign Committee by unanimous vote and Robert G. Phillips, of Elizabethtown, was elected secretary of both committees for the next four years.

SEVEN MEMBERS OF COMMITTEE.

The Campaign Committee will be composed of seven members, including Chairman Johnson. A sub-committee, consisting of Chairman Henry R. Prewitt, W. A. Berry, of the First District, and J. A. Donaldson, of the Sixth District, will select the other six members.

R. H. Winn, chairman of the Republican State Central Committee, was unanimously elected chairman of the State Campaign Committee. Associated with him will be Col. J. W. McCulloch, of Owensboro; Congressman D. C. Edwards, of London; J. L. McCoy, of Lexington, and John H. Gilliam, of Scottsville.

The State Campaign Committee was selected by a sub-committee of the State Central Committee, composed of Chairman Winn, J. Frank Taylor and Congressman J. B. Bennett. The sub-committee reported to the main committee and the recommendations were unanimously approved.

FRANK FISHER THE BOSS.

That Frank M. Fisher, postmaster at Paducah, is the Republican boss in Kentucky and the representative of Frank H. Hitchcock, chairman of the National Republican Committee, was clearly demonstrated.

There were no consultations with Richard P. Ernst, and nothing was said about Marshall Bullitt and other of the former bosses.

United States Representative to Peru Leaves Blue Grass.

Minister Leslie Combs and Mrs. Combs left Wednesday for New York, from which port they sailed for Panama, enroute to Lima, Peru Monday. After a two months' vacation Mr. Combs goes back to his official duties as United Minister to Peru. During his absence there has been a rebellion in the interior.

Makes Hogs Fatten.

W. T. Crompton, Lexington, Ky., says: "I gave your Bourbon Hog Cholera Remedy to some hogs that were thin and weighed only a hundred pounds when they were brought to me. I never saw hogs grow and fatten as fast as these hogs did after I gave them this remedy." Sold by W. S. Lloyd.

"Vassar" Is Sold.

The highest price that has been paid for a saddle mare in a long time was paid last week when Charles L. Bailey, of Lexington, purchased "Vassar" from S. O. Hadden, of Versailles. The price was \$1,500. The mare is by Montgomery Chief and out of a mare by Fayette Denmark.

The battle for freeing the Southern States of the saloon goes bravely on. The State Democratic convention of Arkansas adopted a resolution requesting the submission of a prohibition constitutional amendment to the voters of that State.

We reap what we sow.

ELECTION AT GEORGETOWN.

Vote Was a Tie After Counting Disputed Ballots--Wets Secure Restraining Order.

After sitting for two and one-half days in deliberation over the local option election returns the session of the Commissioners of Scott county was abruptly brought to an end Wednesday afternoon by an injunction secured on behalf of the "wets."

After the morning's procedure it appeared that all was over except the issuing of a certificate of election, it having been decided by a majority vote of the board that the three votes under consideration should all be counted, two as stamped for the "drys" and one as stamped for the "wets."

The vote was summed up:

	Yes.	No.
School House.....	196	153
Court House.....	180	150
Engine House.....	133	220

Total.....529 529
Rest of County.....330 1568
Entire vote: Yes, 559; no, 2,097.

"Dry" county majority, 1,238.

City vote: 529 "dry," 529 "wet."

Thus it stood until the commissioners adjourned until afternoon. The matter of the injunction will go before Judge Stout, of the Circuit Court, either at the October term or as soon as the parties may agree to the presentation of the issues involved to the higher tribunal.

Pebble in His Lungs--Man Supposed to Have Consumption Will Recover.

A. C. Jones, of Lexington, who for the past twenty years has been supposed to have tuberculosis, several days ago coughed up a pebble and is now on a fair way to recovery.

Weak women should read my "Book No. 4 for women." It tells of Dr. Shoop's Slight Cure. Tells how these scolding, antiseptic, suppositories bring quick and certain help. The Book is free. Address Dr. Shoop, Racine, Wis. F. C. Duerson. 4-1

Marvellously Adapted to the World in Which We Live.

We often hear people talk as though God had given us appetites and desires and passions which were never to be gratified, which were only to be resisted, and intimating that man's only chance of happiness in life lies in the violation of God's commandment, when the truth is that God has marvellously adapted us to the world in which we live, and in the whole some and right gratification of our desires there are always peace and happiness. The prohibitions of God's laws are signal lights that tell where are the dangerous rocks upon which our souls may be wrecked.—The Hatchet.

Amos Davis Will Win in Tenth.

The Hon. F. A. Lyon, Sr., of Beattyville, enroute to Louisville to attend the meeting of the Democratic State Central and State Executive Committees, when interviewed upon the subject of the race for Congress in his district said that the chances for carrying the district for a Democratic Congressman are better this year than they have been for many campaigns.

"Davis is growing stronger day by day," said Mr. Lyon, "and everything points to a good Democratic majority in the district."

Standard Oil Co. is to be tried in Tennessee courts November next on 1,624 counts, for which maximum penalty is \$30,000,000.

BRYAN DISSECTS TAFT'S SPEECH.

Ohioan is Amending Platform by Adding Democratic Planks.

Says Republicans Fear an Up-rising.

Charging that Judge Taft was not satisfied with the work of the Chicago convention which nominated him for the Presidency, and that in consequence he is deeply impressed with the work of the Democratic convention at Denver, William J. Bryan issued a statement in which he expressed the opinion that Judge Taft "fears the uprising which Republican abuses have caused and yet he hesitates to adopt his real and substantial reforms."

TRIES TO AMEND PLATFORM.

"The most noticeable feature of his speech is his effort to amend the Republican platform by engrafting upon it some of the planks of the Democratic platform. He is evidently not satisfied with the work of his convention, and is deeply impressed by the work of the Democratic convention."

"He is uncharitable in not giving the Democratic party credit for having pointed out the reforms which his own convention repudiated, but which he, in a half-hearted way, endorses."

Valuable Mare Destroyed.

While exercising the handsome show mare, Martha Allen, by Bourbon Chief, Jr., preparing her for fairs of the Little Rock Circuit, Job F. Young, of Blue Grass, sustained a big loss when the mare reared, fell backwards and killed herself. The mare was a coming two-year-old. At the Bourbon fair last year Mr. Young was awarded the blue ribbon and was offered \$400 for her.

THREATENED BY NIGHT RIDERS.

Governor Declines Action Toward Removing Troops.

Threats against railroads or individual property owners on whose land State guardsmen encamp while on duty will not affect State officials in the selection of camps, according to a letter sent Wednesday by Governor Willson to Vice President Rawn, of the Illinois Central Railroad.

Governor Willson wrote that no efforts at intimidation on the part of the lawlessly inclined people in Western Kentucky will be considered in the movement of troops or the selection of camping grounds for the soldiers in active service.

OFFICERS HAD RECEIVED THREATS.

Vice President Rawn wrote to the Governor from his Chicago office to inform him that following the burning of the railroad company's three depots at Gracey, Otter's Pond and Corleau Springs, written notices from night riders had been received that unless the State troops were moved from their camp on the railroad's right of way at Cobb, by a certain date, all trains would be derailed.

In reply to his letter the Governor indicates that the soldiers, to best perform the duty for which they have been sent into service, will pitch their camps wherever it is most convenient and suitable and not be dependent upon the consent of anyone.

HISGEN AND GRAVES

Are Nominated by the Hearst Party.

Bryan Men Nearly Mobbed By Crowds.

For President—Thomas L. Hisgen, of Massachusetts.

For Vice President—John Temple Graves, of Georgia.

At Chicago, Ill., the above ticket was nominated by the Independence party at its first national convention. The friends of Mr. Bryan made an effort to bring his name before the convention, and the man who attempted it nearly produced a riot.

Remission of Sins Granted By

The Pope to The Truly Contrite.

The Feast of Portiuncula was observed by the Franciscan Churches from 3 p. m. Saturday until sundown Sunday. There is no Franciscan nearer than the one in Cincinnati.

The legend of St. Francis and the Church of Assisi, which he repaired, is one of the most beautiful of the Catholic faith. According to the Irish historian, Luke Wadding, Francis in the year 1221, on the anniversary of the dedication of his little chapel, was favored with a vision, wherein the Lord told him to ask what he would for the salvation of souls. He answered, asking that if he had found favor in His eyes, a full pardon of all their sins be granted to those who visited the church contrite and absolved. In the name of the Lord the Pope granted this indulgence, and the hours between 3 p. m. on August 1, and evening vespers on August 2, were named as those in which the contrite might receive full remission of their sins.

The ceremony generally consists of confessions, communion and a visit to the church of the parish for prayer.

It matters not how many tricks the liquor power perpetrates in the South, for ultimately every saloon, every distillery, and every brewery is to be banished from all the Southern States. When the South goes solid for prohibition we are going to have a solid South worth talking about.—The Hatchet.

Cures Fine Turkeys.

Mrs. H. A. Sutter, Stephensburg, Ky., says: "Your Bourbon Poultry Cure is a right. I had a fine turkey so sick with cholera she could not eat and it cured her. I also cured my chickens of gapes with it." Sold by W. S. Lloyd.

In the world but not of the world should be rule of conduct by professed Christians.

A Novel Introduction.

The Dr. Howard Company have entered into an arrangement with W. S. Lloyd's drug store, by which a special introductory offer will be made of 25 cents on the 50 cent size of their celebrated specific for the cure of constipation and dyspepsia.

So remarkably successful has Dr. Howard's specific been in curing constipation, dyspepsia and all forms of liver trouble, that W. S. Lloyd will return the price paid in every case where it does not give relief.

W. S. Lloyd has been able to secure only a limited supply, so every one who wishes to be cured of dyspepsia should call upon him at once or send him 25 cents by mail, and get 60 doses of the best medicine, on this special half price introductory offer, with his personal guarantee to refund the money if the specific does not cure. aug 5-26

PEOPLE NEED TO THINK.

The more we can make our people think on the liquor question, the more likely we are in the end to have good and sane legislation. It is difficult for us to maintain that we are a temperate people when the drink bill of the nation constantly rises and when, as some one has pointed out, this liquor is certainly drunk by somebody.

Now the most ardent advocate of personal liberty must admit that our hope as a nation lies in a temperate and not an intemperate people. Though we may not believe prohibition a practicable and feasible measure, though we may be opposed to it in principle, we should acknowledge that the public education on the liquor question has been carried forward by the prohibition people and that to them the community owes a great debt, even though their work at times may result in laws so strict as not to be upheld by public opinion and that really set back the cause.

The local option principle is one which it seems to me no sane person can object to. It is merely the Democratic principle of home rule, and just as we need two parties in Democratic government of things, so we need the enthusiastic social agitators of the prohibition side to offset the silent but never sleeping ranks of the liquor men whose self-interest keeps them always on the alert.

The above is an extract from a letter to the Lexington Herald of Sunday. The readers of our paper know the attitude of the writer on the temperance question. Whether the results secured are due to prohibitionists, Democrats or Republicans, we rejoice in their accomplishment. We are pleased to contribute our efforts to the suppression of the legalized saloon.

The personal responsibility to God of an unbeliever can not be eliminated by reason of the fact that the daily life of a Christian is again and again unworthy of the name he has professed.

Am I my brother's keeper? This question deserves serious consideration now, for it must be answered when the books are opened.

Unbelievers have but little confidence in or use for a man who claims to be a follower of the Christ yet lines up with the devil.

Be diligent in business. Be diligent in business, fervent in spirit, serving the Lord.

ANNIVERSARY.

The Mt. Sterling Business Men's Club will be a year old on September 3rd, next, and at the regular September meeting of the Club, officers to serve for the ensuing year will be elected. No one will be allowed to vote whose dues are not paid on or before that date.

As every one knows, the Club has been a great benefit to our city and county. It has organized a first-class Building and Savings Association, which is doing good work for our people. It has been the sole cause of installing free delivery in our city. It has also rendered very material aid in securing an appropriation for a Post Office building in Mt. Sterling. It has entertained numerous men and clubs who came to our city on business of a public nature and accomplished many other things unnecessary to mention. The entertainment of visitors spoken of is alone worth to our county the money expended. It now has 101 paid-up members and all the work done has been accomplished with the \$905.00 thus raised. (We still have over \$100.00 in treasury.)

(One of the questions that will come up for the consideration of the Club at the September meeting will be whether the membership fee shall be increased to \$10.00 per year, or whether it shall remain as it is (\$5.00 per year) and an effort be made to increase the membership to 200.)

A man can not please God and the devil. He ought to serve the Lord and honor the Church, or clear out into the devil's domains. Neither "the world" nor God has any use for a hypocrite.

A man who is a friend today and a foe tomorrow, professing in praises and then secretly a betrayer can not be trusted either in affairs secular or religious.

The Christian's life is the bright and happy life.

Bryan Speech Ready.

The preliminary draft of the speech of acceptance of William J. Bryan was finished Saturday. The speech will be completed today.

A delegation from New York also called.

Mr. Bryan was much gratified to hear from them that the Democracy of New York would cast its solid vote for him. Mr. Bryan imparted the information that it was his intention to go there and deliver several prepared speeches.

Montgomery County Farmers Institute.

The Montgomery County Farmers Institute, held at the Court-house in this city on the 28th and 29th of July, was the third annual meeting and showed greatly increased attendance and interest among our farmers and even other business men.

Commissioner Rankin, who was prevented from attending by a wreck on the road, did everything possible, with the aid of President T. J. Bigstaff, to make these meetings a success, and besides the regular lecturers for this district, had several noted special lecturers to talk on subjects that were especially adapted to this community and country.

Our best and most progressive farmers were present to take advantage of these lectures on up-to-date farming, and those who missed them were unfortunate indeed. But by the way the average Kentucky farmer (it) is the slowest of any business man to inform himself concerning his own business, and the last to learn and adopt the scientific changes and improvements necessary in these modern times.

Farmers Institute meetings held north of the Ohio river are not only well attended, but it is difficult to get buildings large enough to hold the crowds, so eager are the farmers to get this free education on agriculture.

Although blue grass is our great resource, there are many things our farmers do not know about it, which they could have learned from the lecture of our old friend, Mr. Roubelush.

Every farmer thinks he knows how to cultivate corn, but the old-fashioned farmer, Mr. John G. Blair, told the newer and better way of cultivating it in his lecture on "The Good Corn Grower," and at the same time "Restoring Fertility to Worn Soils."

"Mr. W. T. Stafford, who was one of the best lecturers present, and a most forceful and interesting speaker, told "Why These Institutes Were Held," showed the importance of the "Organization of Farmers," and his address on the "Relation of Landlord and Tenant" was a revelation in handling such a difficult subject.

On account of the recent scare of the report of Glanders here the lecture of Dr. David McKenzie, one of the greatest veterinary surgeons in the United States, was better than a text book on that subject and was so clear and in such plain language that any farmer could understand it, and as this county is the greatest horse country in the State, every one should have been interested enough to hear it. He also lectured on the diseases of cattle, sheep and hogs.

As this is a great cattle-grazing country, and so many of our people are engaged in buying feeders and making out of them export cattle, by special request of T. J. Bigstaff, Professor Goode, cattle expert, of the Kentucky Experiment Station, gave an illustrated lecture on the ideal beef animal, and how to feed, that no farmer should have missed hearing.

These lectures are most interesting and educational, delivered by experts on their respective subjects, and are the *creme de la creme* of all their experiences of practical farmers as well as the combined results of the Agricultural Colleges and Experimental Stations of all our States and that at Washington City operated by "Uncle Sam," the biggest and best farmer on earth.

After the institute a meeting for the election of officers was held and resulted: President, T. J. Bigstaff (for third year); Vice Presidents, J. W. T. Highland and J. T. Coons; Secretary, Millard O'Rear.

RAILROAD MEETING

Committee Accompanies Officials On An Inspection Tour.

C. D. Grubbs, H. Clay McKee and R. H. Winn returned from Chicago whither they went to confer with representatives of the Cincinnati, Kentucky and Virginia Railroad Co. relative to the construction of that road through our city, extending from Cincinnati up the Licking valley through Virginia to the Atlantic coast.

The hope is to get the line via Paris, North Middletown, Mt. Sterling to Yale, Ky., thence to Virginia. Arrangements were made for a conference. After their return there was a meeting of our citizens at the Court-house on Thursday, when the committee reported. The outlook was encouraging.

A committee was appointed to accompany representatives of the company over the route from this city to Yale and made engagement for Monday of this week. At the appointed time Mr. H. R. Stone, president of the road, and his civil engineer, Mr. Gerler, were here and on Monday morning these gentlemen were accompanied by R. H. Winn, W. A. DeHaven, C. C. Chennault, C. D. Grubbs and Clay McKee and son, Trimble, on an inspection of the route to Yale on Licking river.

The value to our county and city of such a road will be very great, giving competing line to Cincinnati and the great beyond, and opening up a vast territory rich in timber, mineral and other products.

After the feasibility of the line through our city is demonstrated we hope that an agreement can be made which will result in the building of the main line through our city. The assurance has been given that the road will be built. The vital question to this county is, will the road pass through our city?

The time has come when Mt. Sterling must bestir herself if she is to cope with surrounding Kentucky towns and preserve her standing in the business world. We should extend our facilities for travel and shipment of freight in and out. These great benefits are usually secured by a liberal co-operation.

Many towns have lost out because they have thought that railroads must be constructed through them or factories located in their bounds. There are interests and responsibilities that are mutual between companies and communities.

We hope for a favorable issue. The trip has been made. The engineering difficulties were less than were expected and the prospect pleasing.

Lawless Element of the Saloon-keepers Enraged Against Members of License Board.

[Louisville Evening Post, July 31.]

Mr. Ed. B. Green, chairman of the Board of Public Safety and ex-officio member of the License Board, received word today that his life had been threatened by a certain saloonkeeper.

The threat was the climax of mutterings that have been heard against Mr. Green at the various sessions of the License Board. It was made at a gathering held recently, at which a number of saloonkeepers were present. The exact statement was:

"Green would make an excellent subject for an undertaker. I understand that coffin handles sell for \$2.50 a piece. You understand."

This gentleman who heard the threat knew its significance, that the person who uttered it meant business, and he immediately told Mr. Green of his danger.

This latest development shows the desperate ends to which the lawless saloonkeepers have resorted. They realize that they can expect no quarter from the present administration unless they obey the law, and instead of complying are trying to fight against the inevitable by the only method they know.

When the stomach, heart, or kidney nerves get weak, then these organs always fail. Don't drug the stomach, nor stimulate the heart or kidneys. That is simply a makeshift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The restorative is prepared expressly for these weak inside nerves. It cures these nerves, builds them up. Woman Gets Life Term.

Life imprisonment was the punishment meted out to Mrs. Sarah Morasch Saturday in the District Court of Wyandotte county, Kansas, for the murder of four-year-old Ruth Muller. Mrs. Morasch, 34 years of age, came through the mail to Elk Van Motor, 14 years old, a half sister to the murdered child. The older girl did not die. The candy was sent because the girl had laughed at the woman.

SEETHING FIRE THROUGH BRUSH.

Large Towns On Canadian Pacific Are Wiped Out.

At Winnipeg, Man., Saturday, August 1, brush fires invaded the City of Fernie, B. C., almost completely destroying the place. But seventeen houses were left and 3,000 persons are homeless. The whole country is a seething fire on the Crow's Nest line of the Canadian Pacific railroad.

Hosmer, a Canadian Pacific smelter town, has been wiped out. Thousands are fleeing from Michel to the open country. At Fernie every building except the coal company's offices and a few shacks are destroyed.

Later report says the dead will number 125 and the loss will reach \$8,000,000.

The Truth

Every person in this city who is suffering from Eczema, Pimples, Dandruff or any form of skin or scalp disease, can find relief and be permanently cured by Zemo, a clean liquid for external use. All druggists sell ZEMO FOR SALE BY W. S. LOYD.

Thirty-Eight Enlist—Kentuckians for War.

Saturday was an exceptionally busy day at the United States recruiting station, Lexington. Thirty-eight men from Manchester, Clay county, arrived and were taken immediately to the recruiting station, where the work of enlistment began.

This is the largest number of men to enlist in one day in Kentucky since the Spanish War.

There was only one man who had ever been in the government service before. Nine of these men will serve in the coast artillery, the others in the infantry. All will be sent to Columbus, O., for the present.

Never since the Civil War has Kentucky failed to supply her share of the men for the protection of the United States.

Watching The License Board.

Just now there is nothing happening in Louisville which is of importance to the general community can compare to the hearing before the License Board of the charges preferred against certain saloonkeepers seeking renewals of licenses.

The chief policy of the Grinstead administration is saloon regulation. The Mayor and his Board of Safety have kept the saloons closed on Sunday and increased the saloon license from \$150 to \$500 a year.

Seven hundred and forty saloons are applying for saloon licenses. All saloon licenses are passed upon by the License Board, made up of the Judge of the Police Court, J. Wheeler McGee, a Republican; the chairman of the Board of Safety, Ed B. Green, a Republican; the president of the Sinking Fund, F. J. Herfmann, a Democrat; Mr. Herfmann is also a wholesale liquor dealer. Louisville Post.

ASKS AN INJUNCTION.

Restraining Order Against Printing Commissioners to Prevent Removal of J. W. Hedden.

At Frankfort, Ky., July 31, to prevent the Republican Board of Printing Commissioners from removing him from office of State Superintendent of Printing, J. W. Hedden, of Mt. Sterling, one of the very few Democrats who still draw salaries from the State of Kentucky, filed application in the Franklin Circuit Court for an injunction to prevent the Printing Commission from so ousting him.

Upon the filing of the suit, Circuit Clerk Ben Marshall issued a temporary restraining order against the Printing Board, and until it is dissolved by the Circuit Judge or a higher court Superintendent Hedden will hold on to his job without interference from the Printing Commissioners, even if they should decide to remove him.

HABERBERG FILES SUIT.

Judge James H. Haberberg, attorney for Mr. Hedden, filed suit. The petition avers further that the term for which he was appointed has not expired yet the present Board of Commissioners is threatening to remove him. It is claimed that under the act which created the office, the Superintendent of Printing is to be appointed for a term of four years, only removable for cause. The act creating the position was passed by the 1904 General Assembly. The salary provided is \$1,500 per year. REMOVAL OF HEDDEN REMOVED.

Since the political complexion of the Printing Commission became Republican—it is composed of the Governor, Auditor, Treasurer, Secretary of State and Attorney General—it has been repeatedly rumored that an effort would be made to remove Superintendent Hedden, despite the four-year term provided in the act.

The names of John C. Wood, of Mt. Sterling, and Geo. A. Lewis, of Frankfort, have been mentioned in connection with the appointment, in the event of Hedden's removal. A rumor has been persistent for several days that Mr. Lewis has been decided upon by the Commission as the man for the job, and that steps would be taken at once towards separating Hedden from the pay roll.

August time, tells on the nerves. But that spiritless, no ambition feeling can be easily and quickly averted by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours after beginning to use the Restorative, improvement will be noticed. Of course, full health will not immediately return. The gain, however, will surely follow. And best of all, you will realize and feel your strength and confidence as it is returning. Outside influences depress first the "inside nerves" then the stomach, heart, and kidneys will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by F. C. Duerksen.

Dead After Twenty-Seven Years of Faithful Service as Pastor of Presbyterian Church.

Rev. E. H. Rutherford, pastor of the Second Presbyterian Church, Paris, died at 5 p. m. Thursday, in the seventy-ninth year of his age.

Dr. Rutherford was born on February 22, 1831, in Brownsville, Tenn. He graduated at South Hanover College, Ind., in 1854, and from the Danville Theological Seminary in 1857, and was a classmate of Rev. H. M. Scudder, of Carlisle; Rev. L. H. Blanton, of Richmond, and Rev. Gideon Rout, of Versailles. Drs. Rutherford and Rout marrying sisters, daughters of the late Rev. John C. Young, President of Center College.

Before the war he accepted his first charge in Vicksburg, Miss. During the memorable siege in which General John M. Pemberton defended the city against the besieging force under General Grant, Dr. Rutherford preached almost nightly to the brave defenders, frequently occupying a stump along the breastworks as a pulpit.

After the war he assumed the pastorate of a church at Petersburg, Va., and later in St. Louis, where he remained till 1881, when he accepted a call as pastor of the Second Presbyterian Church of Paris. His discourses were classic in construction, and profound in their scope and breadth of application. From the pulpit he preached the beauty and simplicity of the gospel. In temperament he was as gentle as a woman, and in manner highly cultivated, gracious and pleasing.

He is survived by his wife. In his death the church has lost a valuable and useful servant and the community one of its most honored and respected citizens.

The funeral services will be held in the Second Presbyterian Church this morning, conducted by Rev. Scudder, of Carlisle, and Rev. J. S. Malone, of the First Church, assisted by all of the resident pastors of the city.

The remains will on Monday morning be taken to Danville for interment. Paris Kentuckian-Citizen, Saturday, August 1st.

Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes: "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by R. H. White & Co.

LOVE FOR BALL SAVED BANK.

Director Does Not Claim Credit for Financial Acumen.

The visitor asked to see Al G. Fields, the minister. The hotel clerk indicated a large dignified man who wore bow spectacles. "What? That man who looks like a bank director?" "That man who is a bank director," the clerk corrected.

Mr. Fields didn't deny the charge. "I'll tell you a story to illustrate my financial acumen," he said. "I'm a sportsman first of all—always go to all the baseball games I can. The bank of which I was a director had an unpleasant way of holding its meetings at one o'clock on Saturdays. The particular day I have in mind there was a baseball game scheduled and a man with a million dollars in electric railway bonds came along asking \$100,000 cash on them.

"After consulting my watch I arose at the meeting and made a vigorous speech against giving him the money. The president of the bank protested—said that if everyone believed as I did the Union Pacific railway never would have been built. But I demanded a vote and when the count came in everyone except the president and vice-president had been moved by my oratory. Later this same financier went to Buffalo, got \$500,000 on his bonds and the next day he was in the smoke. 'Vindicated!' No—I got to the baseball park just as the umpire called 'play ball!'—Kansas City Star.

APPALLING COST OF WARFARE.

Victor and Vanquished Are Alike in Dire Financial Straits.

Russia is without a fleet, deprived of her place among the powers of the world because she has neither navy nor credit with which to build one. It is practically impossible for her to resume her place as a first-class power because she cannot hope to be built without a navy, and even if she could raise the billion dollars which she wants, it would take many years to get a navy built, and generations to make it more than a paper fleet. Russia's prestige is gone, her army demoralized, her credit ruined, her debt unbearable, and all the forces of order and turbulence are loosed in her society.

So much for the loser. Turn to Japan, victor in the most wonderful succession of Titanic struggles of all history. How much better is her condition? She is utterly exhausted; her people stagger under the fearful burden of a debt that would be small for a wealthy country, but that is beyond her resources. She has acquired a position in the world which she cannot afford to support. No nation has a more magnificent army; no navy is superior to hers, unit for unit, and none is comparable to it in training and experience; but how shall they be maintained?

Old Painting Appears on Church Wall. Rev. T. D. Gray has communicated to the Cambridge (Eng.) Antiquarian society particulars of a curious picture which has come into view on the interior wall of a Brahmin church. The rural congregation assembled for worship on a Sunday morning were surprised to see a shadowy looking figure facing them on the plain wall where no such object had been known to exist before. It would appear that the picture had been covered by a thin layer of plaster, and that the stamp had caused it to show darkly through the coloring above. On attempting to peel off the plaster it was found that black, red and yellow coloring came off with it, being only mixed with water and size. The face of the figure is in three-quarters of profile, with a beard and curly hair. The head dress was apparently a crown. The left hand grasped a wand 15 1/2 inches long, surmounted with a four-felvy. The clothing in a long robe of ermine, over which was a cloak, was open in front. The wall is of the fifteenth century, and the figure is believed to represent either Edward the Confessor or Henry VI.

Countermanded. A very devout clergyman in the middle west had just married a couple and, as was his custom, offered a fervent prayer, invoking the divine blessing upon them. As they seemed to be worthy folk and not overburdened with this world's goods, he prayed, among other things, for their material prosperity, and besought the Lord to greatly increase the man's business, saying much stress on this point. In filling out the blanks it became necessary to ask the man his business, and to the minister's horror he said: "I keep a saloon."

In telling the story to his wife afterward the clergyman said that as he wrote down the occupation, he whispered: "Lord, You needn't answer that prayer."

That Wakes Him. "Say," began Citiman, "you were saying the other day that you needed a reliable alarm clock. Get one like mine: it's sure—"

"Don't need it now," interrupted Subbute, "my next-door neighbor has just got a Shanghai rooster."

ENORMOUS WEALTH IN SIGHT.

Some Figures Showing the Mineral Riches Stored in Africa.

The British South African Company is raising \$15,000,000, much of which will be spent on new railways in Rhodesia. A correspondent of the London Times draws attention to the rich adjoining district of Katanga. This district is the northern portion of the Province Orientalis of the Congo State.

In the district is a great copper belt, a tin belt, and several bodies of other minerals. The great copper belt runs 180 miles. They are not copper mines in Katanga, they are copper quarries. There are mountains of pure hematite, which can be used alone as a flux in a central smelting plant in Katanga. Other mines are self-fluxing. Over \$1,000,000,000 worth of copper has been proved, and asserts the correspondent after a personal visit, "it would be no exaggeration to say that the actual wealth is ten times that amount." Coal is also there. Of tin more than \$15,000,000 worth has been proved, and the whole is estimated at worth \$150,000,000.

Copper is being produced at a cost of 1 1/2 tons without any appliances. Large bodies of lime (gray dolomite) and small reefs of iron hematite, abundantly in the vicinity of every copper mine. Some mines have bodies of heavily impregnated sandstone alternating with lime and iron reefs, thus being virtually free smelting. Diamonds, petroleum and gold are also found, but not yet in sufficiently paying quantities.

The climate is such that white men and women can live there and rear children.

FINE PAINTINGS GO TO WEST.

Valuable Art Collections Outside Those of the East.

"American oil painters get much more encouragement from the wealthy men of the west than they do from the millionaires of the east," said Henry Rothardt of Milwaukee in New York the other day. "There is more patriotism among the western men of means, and they pay better prices for American pictures than the easterners. American works are going into the collections of the west. Many New York collectors of oil paintings would be greatly surprised if they should make an inspection of the private collections of Milwaukee, Toledo, Cleveland, Denver and other western cities. In the city of Milwaukee alone we have at least 30 private collections which will run over the \$100,000 mark, and fully half of that number will run into \$200,000. In New York you have some wonderful paintings in your private collections, but they are hidden as completely from the public as though they were in the wilds of Africa. Nobody gets the benefit of a view of them, not even their owners, because they are constantly in Europe collecting other pictures to 'hide' in New York."

Keep Your Child Fearless. From the moment a child is brought into the world, when the mother cries out and picks him up with such manner and words that he screams with terror, and the father goes on. The average child begins by being careless, but the average loving mother undermines that confidence with the most careful endeavor. The forbidden fruit of the tree of knowledge is forced upon the child until his naturally erect, fearless mental carriage gradually becomes distorted, and he stumbles and bows to the inevitable. So writes Clara Louise Burnham, in Appleton's.

To allow fear-children conversation to take place in the presence of children—talk concerning sickness or disaster, is another molding influence, robbing them of their gladness, teaching them fearful resignation to fatal, irresistible powers. Even though they show no evidence of it at the time it is sinking into the curious, eager thought and must bear fruit.

Woman Makes Plot of Wildcat. Mrs. G. J. Groumet, one of Alton's best-known society ladies, has a Mexican leopard wildcat for a pet, according to the St. Louis Republic.

It is a gift from her husband, who is in Mexico. The leopard cat, which is now four weeks old and is the size of a big kitten. The animal knows nothing but captivity. The mother of this litter and another was killed that it grows up, fearing it may sometimes answer the call of the wild.

Sharp But Pertinent Advice. "Stop seeing snakes and playing drags inside yourself," is the advice one man lecturer gives and she does not say it is sometimes not an advantage to have an education as one does not need an English accent to be able to help a friend in trouble. Moreover, one can be a fool in plain American and all the knowledge of other languages will not remedy the matter.

Cute Kid. "Yes, Tommy said his mother, 'you've been a very good boy to-day.' 'All right,' cried Tommy, eagerly, 'give me a nickel then.' 'Oh, no.' 'Why, ma, you told me Willie New was good for nothing' an' you don't want me to be like him, do you?'—Philadelphia Trier.

LOUISVILLE & MT. STERLING

Brought Closer Together--Cordial Greeting Extended to Our Visitors, Who Express Their Appreciation.

WILL THIS BE THE END OF IT?

For three days last week about 100 "Heads of Houses," representing the business firms of Louisville, toured several Kentucky towns. The trip was made in a special train consisting of three sleepers, dining car and a combined barber shop and bath room car, costing the projectors \$4,000. The object of the trip was a strengthening of the friendship and commercial ties now existing between the metropolis of our state and these towns. A band of music accompanied them.

They saw the sights and were enthusiastically received. The towns visited included Cynthia, Paris, Winchester, Mt. Sterling, Richmond, Lancaster, Stanford, Harrodsburg, Versailles and probably others. In response to the request of Mayor Harris many of our business houses were decorated. Many business men and other citizens met the visitors at our depot on Wednesday morning, July 29, at 10:30 o'clock. The procession was led by beautiful young ladies in decorated automobiles. Arrangement was made with the committee in charge of the Wharton revival services whereby tent was turned over to the Business Men's Club for the reception of our guests. The religious services had been advanced from 10 o'clock to 9:30 o'clock in order to afford a fine and commodious place for the reception. Really it was the use of a substitute church for social and commercial purposes.

Most of the audience (several hundred) who heard the sermon carried for the reception.

Rev. J. L. Weber, pulpit manager during the revival, was selected by the Business Men's Club to receive our visitors. He is a capital impromptu speaker. His greeting was cordial, entertaining, captivating, abounding in wit, fun and fancy. We have heard only expressions of high appreciation.

Mr. Fred P. Jones, President of Commercial Bank and Trust Co., who was commander-in-chief of the Louisville forces, spoke a few words of appreciation, but especially to introduce Fred W. Keisker, of the firm F. W. Keisker & Son, and Secretary of State Ben L. Bruner, who not only voiced their hearty appreciation of our welcome, but dwelt on the commercial relations which should exist between Louisville and Mt. Sterling and of the mutual help in solving great problems of taxation, enterprise, etc., which might arise. They did not forget to call special attention to the State Fair.

We hope this visit will be of great benefit to our city in that Louisville houses can aid us in securing enterprises and that we can aid Louisville by turning more of Mt. Sterling trade to that city. Why not build up Kentucky's metropolis? Will Louisville hustle for our trade?

Fine Saddle Mare Sent to Rev. Chas. Reber Scoville.

A beautiful five-gaited saddle mare was shipped last night to the Rev. Charles Reber Scoville at Butler, Ind.

Some months ago the Rev. Mr. Scoville conducted series of evangelistic meetings in Lexington. Soon after his departure some of his more intimate friends started a subscription for the purpose of buying a saddle horse for him as a token of their appreciation for the work he had done. Lexington Herald, Sunday.

\$1,500 To Church Fund.

The Hill Street Methodist Church, Lexington, has been made the recipient of a favor by Andrew Carnegie, who also gave the library building. He gives \$1,500 as half cost of a pipe organ.

Quite a number of people have decided to join the Niagara Falls Circle Tour, via C. & D. R. road, through Ohio to Detroit, returning via trolley to Buffalo and steamers to Detroit, a delightful trip. \$25.00 covers all expense. See Mrs. James Wood for full particulars.

Women in Society.
In society a bright and witty woman not merely shines, but she reigns. Conversation brings out all her faculties, and kindles all her sensibilities, and give expression to her deepest emotions. Her talk is more than music; it is music rising to the heights of eloquence. She is more than an artist; she is a goddess before whom genius delights to burn its incense.—John Lord.

How Snakes Hear.
Snakes have no external ears, but inside the head the ear bones are very crude. Snakes "hear," however, by feeling vibration of sounds on their delicate scaly covering, and searching for sound vibrations by protruding the wonderfully sensitive tongue, which is filled with thousands of microscopic nerves. Their sight is very keen in distinguishing movable objects.—St. Nicholas.

To Our Girl Readers.
Girls, you cannot all be pretty, you cannot all be clever, but you can all live well. Before the steadfast beauty of a well lived life, beauty and genius pale into obscurity. Every girl can be an artist in her life, and every girl can be a genius in her daily doings, and if she tries to live up to an ideal of perfection, perfection will surely be hers in some measure.—Home Notes.

Dyes for Wood.
The new colored wood of a Norwegian firm is produced by forcing the sap from the green logs and injecting dyes. The treated wood has increased durability, will not warp, may be polished in the usual manner and most of the colors are claimed to be as stable as that of mahogany. The material is especially suitable for furniture.

Look Always for the Best.
Do not think of your faults, still less of others' faults; in every person who comes near you, look for what is good and strong; honor that; rejoice in it; and as you can, try to imitate it; and your faults will drop off like dead leaves when their time comes.—Ruskin.

Electricity in Siberia.
Almost all the towns in Siberia are having are lights for street use and incandescent lights for houses; and the larger proportion of the people in Siberia have never seen gas, which they regard as an illuminant of a past age.

Brave Dogs.
It is a singular fact that highly-couraged dogs have always much with their ears. This is a chronological fact that was known to fanciers many generations before Gall existed. Never trust a dog that is narrow between the eyes—for a man.

Her Lost Youth.
To Evangelize—You can recover your lost youth if you will get your father to make a will for you. This prescription has seldom been known to fail. But why not give him up and try to catch some one who is nearer your own age?

To Build Radium Springs.
Austria's Government intends to construct a real radium spring and bath, which it will control, at St. Ulrichthal, near Carlsbad. The water in the uranium mines there contains a large quantity of radium.

The Uplift of Pride.
When flowers are full of heaven-descended dew, they always hang their heads; but when they are full of earth-born moisture, they always hold their heads high.

Can Live on Live.
"You're so awfully hard on me," said a young man to a girl. "This is the second time you've been so hard on me." "I'm not so hard on you as you are on me," said the girl.

Keep It Dark.
Some women will admit that they shared a sin, or "reform" club, but insist that they know nothing about it. They are a mess of the job.—Washington Post.

Big Leaves.
The leaf of the coccoloba tree, is nearly 30 feet long; while a single leaf of the parrot tree of Cayman is 10 feet long and 20 inches wide.

Could Easily Cover His Land.
The man, height of 6 feet, the land now above the sea is reforested by him as being 1,000 feet. The mean depth of the ocean is at least 12,000 feet.

Competent as Inspector.
An elderly woman has been made an sanitary inspector. Her report concerning the condition of her neighbor's kitchen is anxiously awaited.

Earnestness That Wins.
There is no substitute for thoroughgoing, ardent and sincere earnestness. Dickens.

Just Step Down.
"A good many people who fall in love don't drop from a very dizzy height."

Best Part of Beauty.
The best part of beauty is that which no picture can express.—Bacon.

And A Lawn Mower.
It takes much less to trundle a wheelbarrow.—Manchester Union.

LEAVES SPROUTED ON TABLES.

Additions Not Considered an Ornament by Their Owners.
Green leaves growing on an ornamental parlor table was the astonishing sight that greeted Mrs. John Foy of Mendon street, West Springfield, Mass., one afternoon recently, as she was engaged in the task of dusting her parlor furniture. At first she thought it was a satire take of the optical delusion variety, but a closer inspection convinced her that the leaves were actually growing from the legs of the table.

A few days ago a peddler sold several of these tables, made of willow in the park, to Mrs. Foy and some of her neighbors. Mrs. Foy had not looked at hers until the day she made the surprising discovery. Throwing a shawl over her head, she ran to the homes of her neighbors, Mrs. Stephen Verepsee and Mrs. Thomas Wright, and found that their tables, too, had begun to flourish like the traditional green bay tree.

WOMAN TURNED CLEVER TRICK.
Mean Man Defeated for Honor That He Coveted.

A letter written by a woman decided a contest for the office of president of a men's club in New York a few days ago. There were two candidates for the place; one a clerk in a New York financial institution, whose young wife had been a working girl, the other a wealthy manufacturer, with a reputation among his neighbors for "cleanness." The day before the election each member of the little club received a typewritten letter, signed by a woman whom all knew, which began with these words: "If what I write you is not true, it is lies." Then she said that the club should not honor its "meanest man" and related some amusing incidents to demonstrate that she was not mistaken in her estimate of the man. In closing she wrote, "what do you think of a man who has his bar-palant and says to his wife, 'That's your birthday present.' If you can afford to elect that kind of a man for your president, go ahead." The alleged "meanest man" was defeated.

"Soupianna Dementia."
Every time John Jenks of Seattle, Wash., goes to a party, he gets crazy. Vermorel, consume, mulligatawny, oxtail or just bean soup—it's all the same to John. Every time he sees soup or a fried meringue, he gets shivers and howls, and if he is offered it at table he grabs the dish with a maniacal yell and throws it up in the air. When it's possible, he rubs it in his hair, and when it's not possible, he washes his face in it and yells like a fiend. This is the peculiar case of "Soupianna Dementia," a condition which has been diagnosed by Mrs. Sheehy Jenks who fears John's mania will spread. The courts have the matter under consideration and are now diagnosing this case of "Soupianna dementia." Meantime polite folk, when John Jenks is invited to a party, make a dash for the door and get away from all suggestion to Mr. Jenks.

Measures Steam Consumption.
Goumou's patent has recently been taken out for a steam consumption meter consisting of a small alternator whose magnet wheel is built into the steam pipe, and is rotated by means of turbine blades fitted to its periphery. The voltage generated in the alternator indicates directly on the scale of a voltmeter the amount of steam consumed per hour, or a continuous record can be taken by means of a strip of paper on a clockwork, or for variations in steam pressure the resistance in the voltmeter circuit is varied automatically by means of a pressure gauge.

The Practice.
"Good friends, Mr. Titer, what is the best advice and warning about?" "That's not pleasant," said John, "but I must say it. I'm a man in his work to tell him the best advice and we would have to order him to stop." "I'm not a man in his work," said John. "I'm a man in his work." "I'm not a man in his work," said John. "I'm a man in his work."

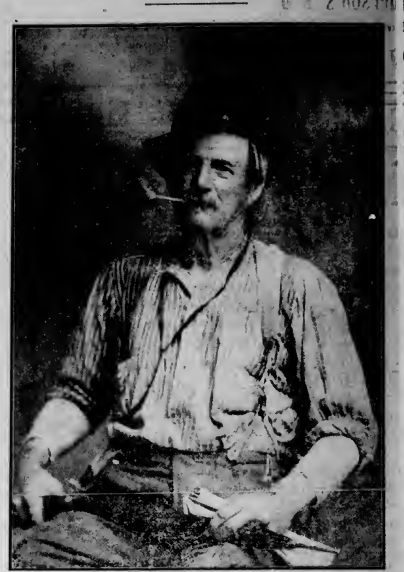

The Man He Admired.
A number of men on the street were having a discussion as to who was the greatest inventor. "Rope," said one, "is the greatest invention." "Rope," said another, "is the greatest invention." "Rope," said another, "is the greatest invention." "Rope," said another, "is the greatest invention."

"Mother's Day."
A movement, originating in Philadelphia, is rapidly extending through the states to set aside May 10 each year as "Mother's Day." Every man and child pledges that day to wear a white carnation "in honor of the best mother who ever lived."

Labor-Saving Pneumatic Hammer.
In riveting with pneumatic hammers two men and one heater average 500 rivets in ten hours, whereas by hand 300 rivets is a good day's work for three men and one heater.

SUMMER COON

Comments On the Reception to Louisville Business Men And Pays Respects to "Backsetting" Department of Religious Life.

Bughtown, Ky., August, 1908.

editor of the Advocate—I drop you a few lines as it has bin quite a while since I herd from the happy land which that good olde town of Mt. Sterling is ankerd in. I seen a fellow that was down there and attended the luge Louisville business men's club, etc. he says it was one of the grandest afars he has witness since tige was a pup. I hee there was sum of the best short speeches made by a number of those brilliant, interprising jentlemen to keep all in good spirits. The jentlemen I hav referd to as a "fellow" I finde is Mr. moore of the tangle foot district. I was glad to meet him as I am wel acquainted in that good olde district. he says dr. webber, the pastor of the methodist church, made the prestyt talk along moral and business lines of all the rest, and he had to cut his talk out, as a mad bull got after him, but Mr. moore ses as the big gathering was about to dispers, admruckles fleet sailed in from the far west with a cargo of calamity water and all the other kinds of good drinkables, and he tolde the crowd if they wished anything along the calamity line that would be welcom. he said our fountain turns out a hundred barrels of the creeter a day, but all eyes was directed on the admiral while he was talking about the best things of our town, which I believe, ought of bin forgotten and overlooked, only for the keen eye and quick thoughts of the admiral; big navy officers make mistakes sometimes and sink the boats. he tolde the crowd he did not drink himself, but there was dead loads of the finest calamity water here that ever went down a red lamp, and if you don't believe it, let sum of your friends and asociats take your word and see if I aint Johnny on the spot all right. wel I her a guy is having a wine meeting going on in Mt. Sterling now. that is a good thing. It cant be no set back to admirs and kerners and judges for the people I dont believe, for there is no room in the bucket of our department. Is kep chuck full all the time. the deivel is running the back setting department. I lay herd that man pr. horton preach and I think he is as fine and true a preacher as I ever herd, and I believe if any preacher can draw any recruits out of the backsetting department him and I believe can; also dont forget brother chas. and moody how to handle the good master's cups as wel, let all the calamity people stand up, then let the non calamity rise. leave the winin and children out and only take the non calamity people in. I am a fan of good preaching and the singing, but I am not a fan of the back setting. she is the cooler in the quare at the crawll church in posson valley. our daughter feby, will be married next tuesday to jack spindleshanks, that is if he comes up according to promes all right. I aint teling feby to keep her eye on jack he might fool her. she ses let him fool there is oles of men that wants her. wel, we folks up here is begining to git busy. our vots will soon be in demand, and the tyran and taff horn blowers must be wel heeld when that come up in these diggings. we stand on our princibles and our princibles is deatht; taffy and promes dont go up here with the coon skin bregade, so I want to warn all canadats in time, its money that keeps us alive and of top. politics without money is too thin a propesition to visit on. our motto is no money no vots. I hope our republican and democrat friends will understand what they will be expected to do when they come up here hunting pyes. times have change since our grandfathers days; the time is come now if you hav no money you are goibg to, and wont be as long as you stay in the world without it. the only consolation for the moneyless man or woman is a hope in the sweet by and by. remember my friends there is but two feet— one one foot and one foot— which are you preparing to set on next summer coon.

WILSON.—On Wednesday, July

29, 1908, Samuel Wilson, aged 85,

of Antioch Church neighborhood,

was paralyzed and died on Friday.

The burial was on Saturday at

private burying ground.

PERWITT.—Caswell Prewitt was

taken to Good Samaritan Hospital,

Lexington, on July 21th to be op-

erated on for gall stone. The

community did not know the seri-

ousness of his condition, hence

were surprised to learn that from

the first there was little hope of

his recovery. His life hung as if

by a thread until Saturday morn-

ing, when his life work was finish-

ed and his spirit returned to his

creator. Caswell Prewitt was the

son of James and Henrietta Prew-

itt. His father settled in this city

in 1824, and in 1837 moved to

the farm on which his son, Cas-

well, was born, reared and had

lived up to his death. His mother

was Miss Henrietta Dawson, of

Bourbon county. Caswell was

born September 13th, 1842, and

died in Lexington on Saturday

morning, August 1, 1908, at 1:50

o'clock, in his 66th year. He was

married to Miss Annie Kenney, of

Bourbon county, on January 18th,

1869. She still lives. Their union

was blessed with eight children,

seven of whom are living, four

sons and three daughters. His

sons are Clifton, Eugene, Wil-

son and Henry. His daughters

are Mrs. Dawson Thurston, Mrs. Ed.

R. Prewitt and Miss Annie Cas-

well. All live in this county ex-

cept Mrs. Thurston and Eugene,

who are in Minneapolis, Minn.

Clifton is the Sheriff of this

county. He has two brothers,

Allen and Clifton Prewitt, and a

sister, Mrs. N. B. Young, all of

this county. From 1902 to 1906

Mr. Prewitt was a member of the

Kentucky Senate, representing the

counties of Montgomery, Clark

and Bourbon. Religiously he was

a worthy member of the Christian

Church, serving his country con-

gregation (Bethlehem) for many

years as a deacon, and at the time

of his death as elder. Religious,

kind, hospitable, energetic, pros-

perous, his was the type of life

that gives honor and worth to a

country. The funeral service was

held at the country home on Sun-

day afternoon, conducted by his

pastor, Rev. W. C. Morro, assisted

by Rev. H. D. Clark. The hono-

rary pall bearers were the elders

and deacons of the Bethlehem

Church. The active pall bearers

were his nephews. Seldom has

the funeral service of any man in

the county attracted a larger as-

sembly of people to attest their high

regard, friendship and love. In

Macphelah Cemetery in Mt. Ster-

ling at 4 o'clock loving friend-

covered him over with beautiful

flowers. His body rests till God

shall call it forth. He leaves to

his family a rich legacy: A good

name, a life of faith in a service

for the Christ.

Personal Liberty Committee Urges a Union of Interests.

All Branches of Business Called Upon to Join to
Combat Hurtful Legislation and the Dis-
astrous Effects Which Follow.

[Lexington Herald.]

The committee appointed by the mass meeting of citizens held on July 18th, to determine as to whether or not it was wise at this time to form a Personal Liberty League in Kentucky, later reported.

RESOLUTIONS ARE ADOPTED.

The following resolutions were given out as a result of the considerations of the committee:

"We, the undersigned members of a committee appointed at a mass meeting of the citizens of Kentucky, held at Lexington on July 18th, composed of breeders of fine horses and other live stock, farmers and business men, after a full discussion, issue to the people of the country the appended statement.

"We believe it is not wise or incumbent upon us to form now any organization which might be construed in the light of having political bearing, but we earnestly appeal to all good citizens to join with us in attaining the purposes set forth in this address.

NO INTEREST STANDS ALONE.

"Believing that no interests stand alone and that all commerce and productive enterprises are intimately connected and interwoven, we earnestly invite the co-operation of all men of affairs who view with disfavor and alarm the disastrous effects of emotional and hurtful legislation.

"We appeal directly to the thoughtful, responsible business men of the State at large and of other States to join us and give force and strength to resist the extremists at the polls and to prevent the enactment of ruinous legislation. The radical legislation which has been enacted and proposed within the past few years and which is being constantly extended makes necessary concerted action of good citizens similar to this for the purposes of self-protection.

BELIEVE IN PERSONAL LIBERTY.

"We believe in the Anglo-Saxon conception of personal liberty, as expressed by the late Grover Cleveland, twice President of the United States, who voiced the following sentiment:

"In a free country the curtailment of absolute rights of the individual should only be such as is essential to the peace and good order of the community. Laws necessarily interfering with the habits and customs of our people, which habits are not offensive to the moral sentiment of the civilized world and are consistent with citizenship and public welfare, are unwise and vexatious."

"At this particular juncture it is well to bear such sentiments in mind, and at the same time to guard against entrenchments from whatever quarter they may threaten.

FAVOR LAW ENFORCEMENT.

"This committee and those whom it represents put themselves on record primarily as in favor of the enforcement and the observance of the law. But we do not believe in the passage of such laws as set at naught individual rights, as confiscate or depreciate large property values without proper justification or as tend to attempt to regulate the private acts and habits which the individual alone should control.

"Against the actions of the Legislature of Kentucky we have no grievance. We believe that the laws which it has passed, for the most part, have been eminently wise, and we welcome the opportunity to thank and commend it. In much of her legislation Kentucky offers an example of proper regulation, without attempt at confiscation, of which every citizen may well be proud and which may be properly held up for the benefit of other States.

HORSES MADE STATE FAMOUS.

"Fine horses have contributed to make Kentucky world famous and have been one of the most substantial sources of revenue in the State. We believe the time honored sport of racing, properly regulated by State Racing Commissions, as has been done in Kentucky and New York, is a necessary adjunct to the development of the thoroughbred and trotting horse.

"With shrinkage in the valuation of property and decline in assets, the burden of taxation inevitably presses harder upon the individual. The confiscation or destruction of millions of dollars in Kentucky would mean that the remaining interests must pay the same amount of money in taxes as have formerly been paid by the conjoint interests. It is well for the people of Kentucky, particu-

larly those living in the rural communities, to bear this fact in mind and to properly safeguard themselves against encroachment and injury.

CITIZENS URGED TO ASSIST.

"Now, therefore, in view of the facts as here presented and in view of the general alarm over the extreme and fanatical measures which threaten the serious injury and, in many cases, the destruction of our interests, we feel that all good citizens and conservative men should join with us in propagating the sane and wise public sentiment which will conduce to the happiness and prosperity of all our people and the destruction of the rights of none. And we urge upon those citizens who stand for personal rights to join with us in a proper and justifiable effort to protect ourselves and our property.

"E. F. CLAY, Chairman,
"JOUETT SHOUSE, Secretary."

Weak Kidneys

Weak Kidneys, simply point to weak nerves. The kidneys, like the heart, and the stomach, find their weakness not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine is scanty, or dark and strong, if you have symptoms of dizziness or other distressing or dangerous kidney disease, or if you show a hereditary tendency to kidney trouble, or if you have a family history of kidney trouble or if you are a sufferer from any of the following diseases, write for sample, E. Turkish Sultan Welts to Popular Demand.

An imperial irade issued at Constantinople, July 24, ordains the assembling of a chamber of deputies in accordance with the constitution which has been elaborated by the Sultan. The irade was communicated to Velis and district lieutenant governors with necessary orders for the holding of elections.

A scene was created in all quarters by the official announcement that the Sultan has decided to convoke the parliament. But the drastic action of the Sultan, in yielding to the demands of the young Turks has taken the palace clique, members of the diplomatic corps, and in fact the entire population of Constantinople completely by surprise.

The Pain Family

You know them; they are numerous, and make their presence felt everywhere. The names of the family are Headache, Toothache, Earache, Backache, Stomach ache, Neuralgia, etc. They are sentinels that warn you of any derangement of your system. When the brain nerves become exhausted or irritated, Headache makes you miserable; if the stomach nerves are weak, indigestion results, and you double up with pain, and if the more prominent nerves are affected, Neuralgia simply makes life unendurable. The way to stop pain is to soothe and strengthen the nerves. Dr. Miles' Anti-Pain Pills do this. The whole Pain family yield to their influence. Harmless if taken as directed.

"I find Dr. Miles' Anti-Pain Pills an excellent remedy for overcoming headache, neuralgia and distressing pains of all sorts. I have used them for the past seven years, in this capacity with the best of results."
